

# Long Term Care Boot Camp

## Training Summary:

Recent updates to the CareVoyant software include new quick intake functions and reporting. This class will review those changes in detail and cover set up tables in detail. Business office or billing staff will benefit the most from this class with a goal of learning best practices and returning to implement the new features.

## Pre-requisites

- Attendees must be familiar with the CareVoyant solution and with current practices/processes within the application.

## Course topics will include but are not limited to the following

- ❖ Quick Intake
- ❖ Financial and census table setup review for best practice including how different tables interact for better understanding
- ❖ Review of processes for creating charges
- ❖ Utilizing ASCII charge creation for bringing in ancillaries
- ❖ Review of Log processing – Medicare A, Medicare B, and Medicaid
- ❖ Review of Patient Liability entry and charge creation changes
- ❖ CV Messaging
- ❖ Extensive overview of setup and process changes related to the new changes including setup related to best practices
- ❖ New/redesigned reports review
